- The Freedom Convoy 2022 arrived in Ottawa on 28th of January 2022 with participants driving their trucks from all points across the country.
- The main demonstration was scheduled for the 29th and 30th of January and several truck operators returned home however there remains a large contingent of operators congesting many streets in the downtown core.
- These truckers vow to remain in place until Covid mandates are lifted across the entire country.

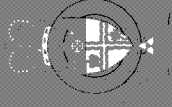

- There have been significant impacts to the Ottawa community but no disruption to Parliamentary operations.
- An Injunction was granted on Feb 7th to halt some of the disruptive actions by truckers in Ottawa
- On Feb 6th, a state of emergency was declared in Ottawa by Mayor Jim Watson which allows for greater financial and administrative flexibility, and also highlights the need for additional supports from other jurisdictions and levels of government.

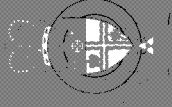

- Since the Ottawa demonstration started, there have been other actions experienced at international and provincial crossings.
- On February 11th, Premier Doug Ford declared a State of Emergency for the Province of Ontario to put an end to the “siege” in Ottawa and Windsor (Ambassador Bridge)
- On Feb. 14, The Gov’t of Canada invoked the Emergencies Act, providing police with “more tools to restore order” where protests “constitute illegal and dangerous activities”

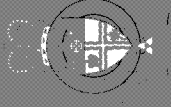

Using an integrated response, the Ottawa Police and policing partners will keep the peace, enforce legislation, and maintain public safety for the duration of the Ottawa Truck Demonstration, with the utmost respect to the individuals Charter of Rights and Freedoms with priority on community and emergency services personnel safety & wellbeing.

- 1. To facilitate a resolution through de-escalation, graduated measurable and multi phased response while ensuring the safety of participants, citizen and members of participating agencies; and
- 2. Return the City of Ottawa to state of normality.

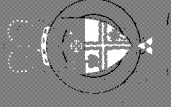

- Concept of Operations has been developed as a collaborative approach with various police agencies to support Ottawa Police Service (Royal Canadian Mounted Police [RCMP], Ontario Provincial Police [OPP], Toronto Police Service [TPS], York Regional Police [YRP] and Peel Regional Police [PRP]).
- Police Liaison Team (PLT) led, negotiation based approach for the next few operational periods with the clear objective of significantly reducing the footprint of the demonstration activity currently taking place in Ottawa.

In the event of an unruly crowd situation, there are officer safety considerations related to making an arrest:

- An unruly crowd situation does not negate an officer's legal requirement to abide with the Provincial Use of Force model
- Each officer will have to balance their response with the possible consequences and impact it will have to the overall event, their personal safety and the safety and security of others involved

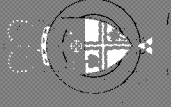

Ultimately, the ideal outcome would be negotiating the complete withdrawal of all protesters in the City of Ottawa.

- That being said, Criminal Offences will not be tolerated. However, immediate arrest may not always be practicable. Officers must be aware of their situation and consider all impact factors / options prior to making an arrest.

Due to the size and scope of the event, decision makers are dependent on officers and supervisors providing accurate and timely information.

It is critical that events on the ground are effectively transmitted in a timely manner to Supervisors and the Incident Commander

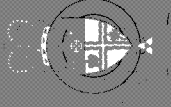

All Use of Force incidents shall be reported and documented as per policy.

All General Occurrence Reports need to be submitted before the end of duty

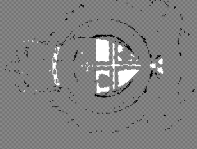

All reports and duty notes related to an in-custody arrest must be submitted before the end of duty
